

NKW-05 series - Electronic Time Switch Coming soon ~

		NKW-05		
Model 型式		NKW-05B25	NKW-05B30	NKW-05B40
Rated Voltage (VAC) 額定電壓		220		
Load Capacity (A) 負載容量	Resistive(A) 電阻	25	30	40
	Inductive(A) 電感	8	10	12
Ambient Temp. (°C) 使用溫度		-10 ~+50		
I/O wire 進出線		2 Input 2 Output(4 holes) 2進2出 (4孔)		
Blackout Compensation 停電補償		Yes 有		
Cycle Time 循環週期		7days 7天		
Dimention(mm) 尺寸				
Weight (kg) 重量		0.25		

Characteristic:

- Embedded 4 time sequence switches that can use for advertisement light; ex: 6:00 p.m. turn on, 24:00 p.m. turn off.
- The self-setting time sequence switch; ex: 7:00 p.m. turn on, 11:30 p.m. turn off.
- The device output (2 outputs) can be directly connected with load.
- The data of the self-setting time sequence switch can be reserved over 6 years.
